CARE & TECHNOLOGIES

About PEMF

How It Works

PEMF stimulates cellular metabolism/activity by increasing Thymidine Monophosphate (TMP) a vital binding unit in the formation of DNA, and flow of ions across the cell membrane, growth factors, tissue repair and healing.

Increased TMP causes:

- enhanced cellular energy (ATP) production,
- increased oxygen uptake
- changes in entry of calcium
- movement of sodium out of the cell and movement of potassium into the cell
- changes in enzyme and biochemical activity

For an athlete, PEMF is legal competitive advantage that promotes your LIFELONG HEALTH.

Benefits

Changes in cellular pH stimulates large amounts of lymphatic vessels to pump and drain lymph fluid which, in turn, supports immune health. This effect involves a chain of processes in the body leading to health improvement without side effects:

- Increased production of nitric oxide
- Improved micro-circulation
- Increased supply of oxygen, ions and nutrients to cells
- Increased partial oxygen pressure
- Increased ATP production by excitation of electrons
- Stimulation of RNA and DNA production
- Accelerated protein bio-synthesis by electron and energy transfer
- Anti-oxidations regulation with increased circulation of available electrons
- Increased calcium transport/absorption for stronger bones, joints & muscles
- Enhanced cellular and tissue elasticity with increased collagen production
- Raised cellular genesis promotes bone, cartilage, tendon, soft tissue growth
- Stimulation of cellular repair mechanisms
- Enhanced macro circulation: de-clumps blood cells, dilates/constricts vessels and aids the growth of new blood vessels
- Increased absorption of nutrients and pharmaceuticals
- Accelerated detoxification of cells and organs
- Decreased swelling, inflammation and pain
- Boosting of the immune system by improving the rolling and adhesion behavior of white blood cells.

Director: "PEMF is
the Therapy most
athletes ask for
first."

The PEMF advantage

PEMF improves sports performance, and promotes best health.

PEMF stimulates muscles, connective tissues, intestines, tendons and cartilage, the brain and peripheral nerve sites. In doing so, PEMF promotes healing and a return to higher activity levels. Functions that were lost, begin to recover.

95% of people report less pain, better range of motion, more energy and a greater sense of well-being after using HIGH-POWERED PEMF; benefits last 4 hours to 4 days as healing begins; repeat use extends period of benefits.

PEMF helps the natural body healing processes by delivering a non-invasive form of repetitive stimulation that has NO ADVERSE EFFECTS.

PEMF increases blood circulation in and around damaged tissue and helps damaged cells heal by bringing more oxygen into the cells.

PEMF is proven effective with diverse medical needs and conditions: increasing bone formation and bone density; accelerating the healing of fractures, osteotomies and spinal cord damage; accelerating recovery from wounds and trauma; accelerating surgical recovery; increasing recovery from heart attack and stroke; assisting in recovery from tendonitis and osteoarthritis; assisting in the recovery from neurological degenerative conditions such as MS.

PEMF Positively affects biologic processes such as: stimulating cellular metabolism, blood and fluids circulation, tissue regeneration and immune system response. Cells are able to function better and tissues repair themselves more efficiently and vital organs are able to rid themselves of impurities, allowing better organ functionality.

PEMF therapy leaves users feeling relaxed, energized and renewed.

RCANDT STACKING SYSTEM NHL/NFL Premium Sports Package

Portable or Tabletop, 5 Coils, Pelvic Correction Kit, Human Performance Technology, US\$20,200

RC Max PEMF 120 Portable

Designed for use in Athletes' Homes, Team-Training Facilities, Sports-Medicine Departments, and Professional Practices.

RC Max PEMF 120 Tabletop

Butterfly, Paddle, Large Loop, 30 Foot Rope Coil, and Pad.
RC&T's proprietary personal best performance and personal best fitness protocols use the coils above.

Pelvic Correction Kit

Corrects musculoskeletal imbalance – most notably functional short leg and forward head posture and is part of our back, joint and overall spinal protocol.

Voxxlife Human Performance Technology (HPT)

HPT optimizes Neurology in 7 seconds – instantaneously producing a 31% improvement in balance and lateral/dynamic stability. Choice of 2 HPT products included (socks, insoles, sleeve, knee pad, patches).

Each RC&T Technology makes a unique and specific contribution to improved cellular health, adapts to each user, is more effective when used with the others, amplifies the benefits of Professional Care/Training and/or healthy life practices, and does no harm.

RC&T Technologies either:

- 1: give cells back the power, oxygen, or other resources needed to heal, repair, and perform, or
2. help the body return to homeostasis and balance.

Among the most promising of these Technologies is the World's most advanced CBD:

CB1 RECEPTORS ARE LOCATED IN CELLS OF THE:

Brain/CNS/Spinal Cord
Cerebral Regions (neocortex, prefrontal cortex, hippocampus, amygdala)
Cerebellum
Brainstem
Basal Ganglia (globus pallidus, subthalamic nucleus, putamen)
Olfactory Bulb
Thalamus
Hypothalamus
Pituitary
Thyroid (endocrine gland)
Upper Airways
Liver Kupfer cells (macrophage)
Intestine cells (macrophage)
Adipose cells (fat storage cells)
Adipocytes (fat storage cells)
Ovaries (gonads and endocrine glands)
Uterus (myometrium)
Prostate (epithelial and smooth muscle cells)
Testes (gonads and endocrine glands)
Leydig cells, sperm cells

CB1 & CB2 RECEPTORS ARE LOCATED IN CELLS OF THE:

Eye
Heart
Stomach
Pancreas
Intestines
Bone

CB2 RECEPTORS ARE LOCATED IN CELLS OF THE:

Spleen
Tonsils
Thymus
Lymphatic and Immune System
Blood lymphocytes
Skin Keratinocytes (non-immune)
Blood Vessels
Tarsal epidermal cells

NON-CB1 & NON-CB2 RECEPTORS ARE LOCATED IN CELLS OF THE:

Blood Vessels
Tarsal epidermal cells

PATH OF PURITY

- Made from 100% organic Phytocannabinoid Rich (PCR) Full-Spectrum CBD Hemp Oil for a superior therapeutic entourage effect.
- 50mg tablet form, engineered with an ONLY-of-its-kind dual-tier-release-delivery-system (sublingual release of 25mg in first 30 minutes with second 25 mg release 3-6 hours later - when CB1 and CB2 receptors signal for more) for optimal bioavailability and absorption;
- Less-than-point-three (<.3%) THC content so completely non-psychoactive.
- Priced to offer unparalleled value (\$.05 cents per mg) to your training and/or wellness efforts, based on a 2 month supply. To learn more please visit our [Path of Purity, NOW more than ever!](#)

3rd Party Bio-Availability: SINGLE DOSE PoP

Bio-availability of CBD in serum. Post sublingual administration of a 50mg PoP Tablet. (Average data for 4 volunteers)

Special offer: RC MAX PEMF 120 purchasers wishing to evaluate the added benefits of improving the performance of their Endocannabinoid Systems alongside PEMF, are invited to accept two (2) free 60 tablet bottles of Path of Purity to use/share as you deem appropriate. We will make arrangements as part of our RC MAX PEMF 120 Delivery Fulfilment and Training Process. Note: This offer is subject to CBD legislation in your area.

**Individually and/or
STACKED, RC&T
Technologies help
everyone.**

Elite Athletes excel
even more, raise fitness,
improve wellness.

Recreational Athletes
perform better, raise
fitness, improve wellness.

Less active people feel
systemic improvement;
many increase fitness
and/or wellness efforts
and activities.

EVERYONE becomes
more resistant to illness
and injury, aging is
slowed.

HEAL REPAIR PERFORM

RC&T Technologies apply to everyone no matter where they are on the health, wellness and fitness continuum. Patients feel results and momentum quickly. STACKING the RC&T Technologies together takes advantage of their synergy while creating overlap in vital quality of life factors like: reduced pain, improved ROM, reduced inflammation, more energy and better sleep.
